

Politica integrata de Calitate, Mediu, Sanatate si Securitate in munca

Impreuna cu companiile fondatoare, Greiner si Recticel, Eurofoam a construit o retea de peste 50 de fabrici in peste 20 de tari.

Eurofoam Romania, cu sediul central in Sibiu si cele 4 puncte de debitare in Bucuresti, Craiova, Piatra Neamt si Baia Mare, este cel mai mare producator de spume poliuretanic flexibile din Romania.

Cu o gama larga de produse, Eurofoam poate raspunde oricarei cereri de pe piata. Orientarea catre client este prioritatea organizatiei, iar munca in echipa insemna crearea, mentinerea si imbunatatirea relatiilor cu partenerii Eurofoam.

Nu doar calitatea produselor este atuul organizatiei, ci flexibilitatea si implicarea personala a fiecarui angajat. Colaborarea si comunicarea sunt principiile de baza ale intregului management al companiei.

Din 2007 si pana in prezent, Eurofoam Sibiu a implementat si certificat continuu sistemele de management calitate, mediu si securitate, bazate pe standardele internationale ISO 9001, ISO TS 16949 & IATF 16949, ISO 14001 si OHSAS 18001 in toate variantele publicate.

Pentru anul 2020 si viitor, scopul organizatiei este de recertificare sisteme in baza standardelor ISO 9001:2015, IATF 16949:2016, ISO 14001:2015 si tranzitia la standardul ISO 45001:2018 care inlocuieste standardul OHSAS 18001:2007.

Acestea urmaresc indeplinirea cerintelor clientului, cerintelor legale, a celor de reglementare, precum si prevenirea poluarii.

Angajamentul Managementului se concretizeaza prin urmatoarele directii strategice de actiune:

- ✓ Adoptarea strategiei "zero defecte", "zero incidente de mediu" si "zero accidente de munca" prin masuri preventive / corective si imbunatatire continua a proceselor;
- ✓ Cresterea performantelor prin dezvoltarea infrastructurii si modernizarea echipamentelor, serviciilor si produselor;
- ✓ Asigurarea unui climat de lucru care sa genereze o imbunatatire continua a eficientei proceselor de productie precum si prevenirea accidentelor de munca si a imbolnavirilor;
- ✓ Motivarea, atragerea si atasamentul personalului la atingerea obiectivelor pe care ni le propunem;
- ✓ Promovarea activitatilor de voluntariat prin implicarea angajatilor in actiuni de protejare a mediului, de pastrare a echilibrului natural;
- ✓ Instruirea si pregatirea eficienta a angajatilor in vederea aplicarii standardelor de calitate, mediu si securitate;
- ✓ Atribuire responsabilitati si autoritati unui membru al managementului pentru:
 - asigurarea conformitatii sistemelor de management al calitatii, mediului, sanatiei si securitatii in munca
 - conformitatea datelor de iesire din procese
 - raportarea performantei sistemelor de management al calitatii, mediului, sanatiei si securitatii in munca si a oportunitatilor de imbunatatire catre management
 - promovarea unei atitudini pro-active fata de riscurile potentiale specifice care ar putea afecta calitatea, mediul, sanatatea si securitatea muncii
 - managementul schimbarilor in sistemele de calitate, mediu, sanatate si securitate in munca
 - indeplinirea cerintelor clientilor, cerintelor legale si alte cerinte aplicabile

Quality, Environment, Safety and Security Policy statement

By the combined efforts of Recticel and Greiner, the founder companies, Eurofoam managed to build a network of over 50 plants (foaming and converting units) in more than 20 countries.

Eurofoam Romania, with the headquarter in Sibiu and the 4 converting units in Bucharest, Craiova, Piatra Neamt and Baia Mare is the largest producer of polyurethane flexible foam in Romania.

Due to its large range of products, Eurofoam is able to satisfy any demand received from the market. The main focus of the organization is client oriented business, and team work means exactly creating, maintaining and continuously improving the business relationship with all Eurofoam partners.

Not only the high quality standard of the foam grades is our strength, but also flexibility and the personal involvement of each employee.

Since with 2007 until present, Eurofoam Sibiu has implemented and certified continuously the management systems for quality, environment and security, based on international standards such as ISO 9001, ISO TS 16949 & IATF 16949, ISO 14001 and OHSAS 18001 in all published versions.

For 2020, organization goal is to recertify the systems according to ISO 9001:2015, IATF 16949:2016, ISO 14001:2015, and the transition to ISO 45001:2018 which replaces OHSAS 18001:2007

These aim the fulfilment of customer and legal requirements, regulatory requirements and the pollution prevention.

Management Commitment is materialized through the following strategic action guide lines:

- ✓ Adopting the "zero defects", "zero environmental incidents" and "zero accidents at work" strategy through preventive measures/corrective actions and continuous process improvement;
- ✓ Improving performance by developing the infrastructure and upgrading of equipment, products and services;
- ✓ Providing a work environment that will generate continuous improvement in efficiency of production processes as also in disease and work accidents prevention;
- ✓ Generating motivation, attraction and commitment of personnel in order to achieve the objectives that we've targeted
- ✓ Promoting voluntary activities by involving employees in actions to protect the environment, preservation of natural balance
- ✓ Efficient employees training in order to apply the requirements of the quality, environment and security standards;
- ✓ Assign responsibilities and authorities for a member of management to ensure:
 - conformity of the quality, environment, health and safety systems;
 - conformity of processes outputs
 - reporting regarding performance for quality, environment, health and safety systems
 - promoting a proactive attitude towards specific potential risks that could affect the environment, health and safety;
 - changes in the management systems
 - fulfilling of customer requirements & special characteristics, setting of quality objectives and related training, corrective and preventive actions, follow customer score cards (quality & logistic) and customer portals.
 - fulfilling legal requirements and other applicable requirements
